Integration Guide

1. Preliminary Step

- An account must be created in the WOTC.com software to establish an integration and attribute tax credits to the appropriate FEIN number for processing with the IRS. Once the account is created, you will receive an email confirming your active status.

2. Enabling the Integration

- Clients will need to create a Service Account in HR Cloud and provide their "Customer Key" and "Customer Secret" to their WOTC.com Partner Alliance Manager.
- To do this, click on "Settings", "Service Accounts" and then the plus button.
- The Service Account Name can be WOTCCOM and the Service Account must be marked as active.
