About HR Cloud

At HR Cloud, we're dedicated to making HR tasks easier and more efficient for companies of all sizes. Our cloud-based HR management platform provides a comprehensive suite of tools that enable HR teams to streamline their processes and focus on more strategic initiatives.

Company History

HR Cloud was founded in 2012 with the mission to simplify HR processes through technology. Since then, we've grown into a leading provider of HR software solutions for companies worldwide. Our team is made up of HR experts and technology innovators who work tirelessly to deliver the best possible user experience for our customers.

Dedicated Team to You and Your Employees

We value the importance of teams in every organization. This is what keeps motivating us at HR Cloud to support our customers' team and their needs. From managing employees to tracking paperwork, we understand the unique demands of the human resources department.

Since 2012, HR Cloud has continuously empowered individuals and groups to improve their respective companies. It has always been our mission to create a collaborative and encouraging atmosphere for everyone.

Company Values

At HR Cloud, our company values shape our approach to HR software and services:

Integrity

We hold ourselves to the highest ethical standards, ensuring honesty and transparency in every interaction.

Customer Obsession

Our unwavering focus on client happiness drives us to meet your needs with precision and efficiency.

Innovation

We continually push the boundaries of what's possible, developing advanced solutions that empower your HR team.

Collaboration

By working together internally and with you, we foster an environment that enables us to create seamless, productive experiences for our clients.

Company Mission

HR Cloud's mission goes beyond providing exceptional software; we aim to revolutionize the human resources experience.

Boost Productivity

By offering cutting-edge, intuitive solutions, we empower companies to maximize efficiency. Our streamlined HR tools and solutions liberate teams to concentrate on what truly matters—driving business success and growth.

Enhance Lives

We strive to simplify the lives of employees, managers, and HR professionals alike. Our user-friendly, time-saving solutions alleviate the burden of administrative tasks, and enable individuals to focus on their passions and career aspirations.

Humanize HR

HR Cloud seeks to infuse a personal touch into the often impersonal HR landscape. We create engaging and empathetic experiences, and we foster genuine connections between employees and HR teams by providing tools that encourage meaningful communication.

Applications:

Our platform includes a range of applications to help HR teams manage every aspect of their HR processes. Here's a brief overview of each of our applications:

Workmates

HR Cloud's Workmates is an employee engagement platform that provides streamlined communication, employee recognition, and feedback mechanisms to promote engagement, morale, and productivity.

Onboard

Onboard gives you all the tools you need to create memorable, productive onboarding experiences. From customized workflows to progress reports and everything in between, Onboard turns traditional onboarding efforts into a new competitive edge.

Offboard

Companies that overlook the offboarding process are missing one last opportunity to connect with employees. When team members decide to move on, give them a farewell experience they'll remember and appreciate. HR Cloud's employee offboarding software makes the process less painful and more professional.

People

People HRMS software is a comprehensive solution that provides HR teams with all the tools they need to manage employee data. With customizable dashboards, reporting tools, and data analytics, our platform makes it easy to track employee data and make informed decisions.

Time-Off

Time-off tracking software simplifies the process of managing employee time off requests. With customizable policies, automated workflows, and real-time tracking, our platform makes it easy to manage time off requests. The software allows employees to submit requests online and track their balances in real-time.

Perform

Perform software is a powerful employee performance management solution that simplifies the process of setting goals, providing feedback, and conducting performance reviews. With customizable review cycles and feedback tools, our platform streamlines the entire performance management process, making it easier and more effective.

Recruit

Our applicant tracking system simplifies the hiring process by streamlining candidate sourcing, screening, and tracking. With customizable workflows and automated communications, our platform makes it easy to find and hire the right candidates.

Time Clock

Our time clock software simplifies time tracking for employees and managers. With real-time reporting and accurate time tracking, managers can easily monitor employee hours and make informed decisions.

In conclusion, HR Cloud is a comprehensive HR management platform that offers a range of applications to help HR teams streamline their processes and focus on more strategic initiatives. With our dedication to customer support, data security, and innovation, we're confident that we can help your company achieve its HR goals. Contact us today to learn more.

Customer Support and Implementation

We take pride in providing exceptional customer support and implementation services to ensure that our customers get the most out of our platform. Our team of dedicated support specialists is available via live chat app to help with any issues or questions that may arise for all users of our softwares. Additionally, each client gets their own Account Manager who goes through the implementation process of the software with them. The admins can reach out to their account manager at any time after the implementation process for any issue they might have.

“I am so impressed with HR Cloud’s response times, which is one of the main reasons why I think they are so successful. I never felt that I was on my own or had to try to figure something out since the HR Cloud team was always there to support me.”

Shirley Garcia | Auditing and Operations Administrator

Security and Data Privacy

At HR Cloud, we take data privacy very seriously and work hard to maintain SOC2 compliance requirements on every solution we offer — from our onboarding software, to our employee engagement tools.

Industry Leading Security with HR Cloud

All of these best of breed security measures help keep your private company information exactly as they should be — private! But these privacy measure aren't just for major corporations. No matter what size company you operate, HR Cloud's enterprise level security is available to you.

Your Data, Wherever and Whenever You Need It

All HR Cloud user data is replicated to our data centers in real-time and stored in physically secure biometric-protected server cages. Because of this, we're able to guarantee your data will be both safe and available to you wherever and whenever you need it — no matter what.

We Protect Your Data

Through the use of multi-vendor firewalls, two-factor authentication, and intrusion detection, we're able to protect your data from any and all data breaches. This is critical as reports of major corporate hacks, social networks misusing user data, and political election tampering have become regular news. With HR Cloud, you don't need to worry about such attacks.

Quality Guaranteed

Our rigorously maintained SOC2 compliance certification signifies our commitment to process your company's information with the utmost integrity. All data is routinely scanned for errors.

HR Cloud is a leading provider of proven HR solutions, including recruiting, onboarding, employee communications & engagement, and rewards & recognition. Our user-friendly software increases employee productivity, delivers time and cost savings, and minimizes compliance risk.
