Features and Benefits

Employee Announcements

Replace Give employees pre-approved content to post on their own social networks to transform the workforce into powerful brand advocates.

Recognition & Rewards

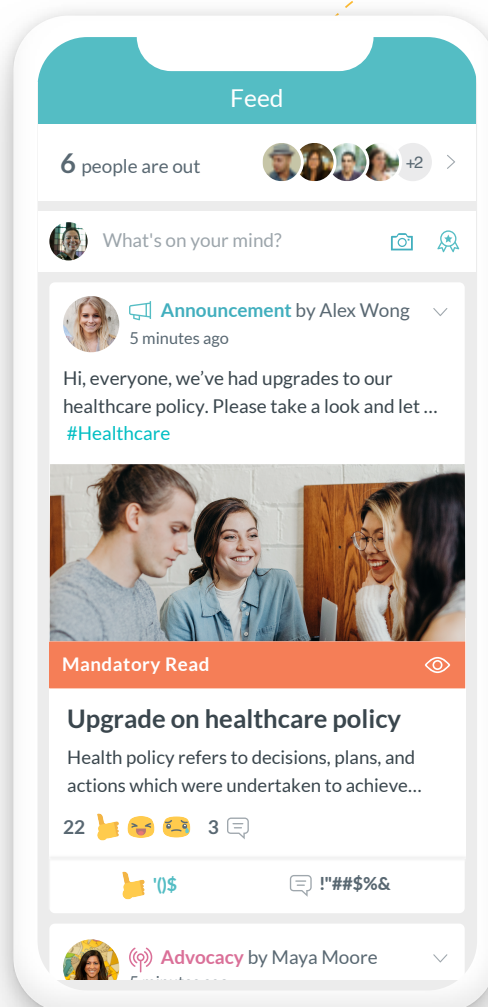

Workmates lets any employee give a virtual high five to recognize specific accomplishments and turn these kudos into points and rewards.

Valuable Channels

Users can create valuable group channels to align teams, simplify communications, and focus their efforts on a common goal.

Third Party Integrations

Employees can use SSO to use other popular apps, such as Google, Microsoft Office 365, Yammer, and Slack.

Content Management System

Our easy-to-use content management system gives you a better way to manage your organization's content, documents, and files.

Internal Communications

All the tools you need to communicate with employees—in the way that they prefer—to help them feel informed and part of a valued team.

Powerful Analytics

Real-time reporting and powerful analytics show you how to get more out of your solution.

Mobile App

Workmates includes a mobile app that connects remote employees or field-based workers who may not have access to a laptop.

Company Problems

- Difficulty in communicating with deskless, remote and frontline workers
- Lack of communication between and within offices /teams
- Missing company culture, especially with remote workers
- Lack of company recognition or recognition inconsistent with company values
- Difficulty in ensuring new policies are reviewed by all employees and important company documents stored across multiple systems
- New hires have trouble putting names to faces

Workmates' Solutions

- ✓ Streamlined company wide messages sent immediately to all employees through multiple mediums including SMS
- ✓ Create company, location and channels for each business unit and easily communicate across all business units
- ✓ Fun, social features drive engagement and give employees a hub to communicate
- ✓ Develop a company specific recognition program and foster peer-to-peer as well as manager-to-employee recognition
- ✓ Workmates' CMS allows you to securely store all important policies and other company documents in a central, easy-to-find location and allows admins to send off new policies for acknowledgement and signature
- ✓ Company directory with preferred names, profile pictures, company position, and contact info

"Interim Healthcare SLC needed HR technology, and we're pleased with the results we've gained from HR Cloud's solutions for recruiting, onboarding, and employee engagement. Yet it's really an opportunity for all Interim franchises. It would be so great if each franchise owner could implement similar solutions to replace legacy systems that might not work as well as they should."

Michael Hawkins | Franchise Owner
